### VBS AT NEW HOPE

New Hope Baptist Church will be holding Vacation Bible School June 14 - 18. Much work is being done in preparation for this event by everyone.

The children in the three - year-old age group will be working around the theme "Jesus Loves Me". Many learning activities have been planned for the preschoolers who attend.

Vacation Bible School for 1976 will take older preschoolers on a journey into the wonderful world of "Friends and Helpers". We will think about "Showing Love for God" as we learn about some people in the Bible and how they showed their love for God. We will seek to guide each preschooler to become aware of God's love and feel gratitude for it; and help him find ways to show his love for God.

Vacation Bible School provides opportunities for each child to develop spiritually, mentally and socially.

We are looking forward to being with your child.

## GOOD NEWS FOR HOMEMAKERS

by Shirley W. Walton Extension Agent

### STRAWBERRIES

Select strawberries with a full red color and a bright luster, firm flesh, and the cap stem still attached. The berries should be dry and clean. Medium and small sized berries may have better eating quality than large ones.

Select fully ripe berries for freezing and for jams. Strawberries for preserves should be firm.

Wash berries in cold water a few at a time before removing cap stems.

**FREEZING STRAWBERRIES**

Wash berries and remove cap stems. Slice berries into a large measuring cup or bowl. A quart of fresh berries will yield about 1½ pints frozen berries.

Sprinkle sugar over berries - ¾ cup sugar to each quart of sliced berries. Turn berries over and over until sugar is dissolved and some juice is formed.

Pack berries in containers, leaving ½-inch headspace in rigid containers. Seal. Freeze; then store at 0°F or below.

**Recipes of the Week**

**STRAWBERRY JAM with liquid pectin**

Yield: 4 pints

4 cups crushed strawberries (about 2 qts. fresh berries)
7 cups sugar
½ bottle liquid pectin

Crush berries and measure into a large kettle. Add the sugar and stir well. Place on high heat and, stirring constantly, bring quickly to a full boil. Boil hard for 1 minute, stirring constantly. Remove from heat; skim off foam.

Pour into hot glass containers to within ⅛-inch of top, and seal.

**STRAWBERRY JAM** without added pectin

Yield: 2 pints

4 cups crushed strawberries (about 2 qts. fresh berries)
4 cups sugar

Crush berries and measure into a large kettle. Add sugar and stir well. Boil rapidly, stirring constantly, until mixture thickens. A candy or deep fat thermometer can be used to judge doneness. The jam is done when the temperature reaches 221°., or 9°F. above the boiling point of water. (Remember that altitude affects boiling point.)

Remove from heat and skim off foam.

Pour into hot glass containers to within ½-inch of top, and seal.

**STRAWBERRY JAM uncooked**

Yield: 3½ pints

3 cups crushed strawberries (1½ quarts of fresh berries)
5 cups sugar
1 package powdered pectin
1 cup water

Crush berries and measure into a large mixing bowl. Add sugar, mix well, and let stand for 20 minutes, stirring occasionally.

Dissolve pectin in water. Bring to a boil and boil for 1 minute. Add to the berry-sugar mixture and stir for two minutes.

Pour into freezer containers. Cover and let stand at room temperature for 24 hours or until the jam has set.

When jam has set, store in refrigerator or freezer. Storage time in the refrigerator is approximately a month; in the freezer, a year.

If jam is too firm, stir to soften. If it tends to separate, stir to blend. If too soft, bring to a boil; it will thicken on cooling.

**STRAWBERRY PRESERVES**

Yield: 2 Pints

6 cups strawberries (about 2 quarts fresh berries)
4½ cups sugar

Select firm, tart berries for preserves. Wash berries and remove cap stems.

Combine fruit and sugar in alternate layers and let stand for 8 to 10 hours in the refrigerator or other cool place.

Bring to a boil, stirring gently. Boil rapidly, stirring as needed to prevent sticking. Cook until the syrup is somewhat thick (about 15 or 20 minutes) or until temperature reaches 221 °F., or 9°F above the boiling point of water. Remove from heat; skim.

Pour into hot glass containers to within ⅛-inch of top and seal.

**BLUEBERRY SALAD**

1 can blueberries
1 No. 2 Can Crushed Pineapple
2 Pkg. Boxes Black Cherry Gelatin
½ Pint Sour Cream
2 Sm. Pkgs. Cream Cheese
½ cup sugar

Drain juice from blueberries and pineapple into measuring cup. Dissolve gelatin in 2 cups hot water. Add fruit juice (2 cups or less). Let chill until thick. Fold in fruits and nuts. Chill until firm. Whip sour cream and cream cheese with sugar. Spread on top. Sprinkle with nuts and coconut if desired.

**RECIPE OF THE WEEK**

This recipe is being rerun because of numerous requests. Many thanks to the **Times-Virginian** for allowing the Extension Service this additional space.

**TEACHER AIDES HONORED AT APS**

Parent volunteers at the Primary School are a familiar sight. On Tuesday, May 4, four PTA volunteers had an unusual assignment. They became "the teacher" for one hour while Mrs. Calvert Poole, Mrs. Sara Morris, Mrs. Carolyn Coleman, and Miss Patsy Butler became waitresses. The special occasion was the honoring of all the teacher aides in the school and the school nurse. The honorees were served a candlelight dinner in the media center. At the end of the meal, the gifted and talented students at APS entered. Each student carried a yellow carnation in a vase he had decorated. The hour was full of surprises for our dedicated aides and nurse.
